

#GoSeedless

What this is

A short paid product-feedback campaign. We invite people to install Seedless v0.4.4-beta, complete 5 simple in-app tasks, and post a public review on X. From the submissions, 25 winners get \$5 USDC each. The 3 best reports out of those 25 get a \$10 bonus on top.

Why we're doing it

- Real users on mainnet generate real product friction signal we can't get from passive testers.
- Public reviews on X turn every tester into a content creator. Built-in distribution.
- Aggregated feedback feeds the 0.4.5 priority list directly.
- Every winner ends with USDC sitting in a Seedless wallet, which converts most into real users.

How it works

1. The campaign launches as a personal-account post from @francis_codex. @seedless_wallet quotes and retweets to amplify. A personal account carries more trust than a product account for this kind of ask.
2. The post links to the public beta tester Telegram group.
3. Anyone who joins the group sees one pinned message with: APK download link, install guide, the 5 tasks, the submission form, the deadline, the prize structure.
4. Each tester installs the APK, completes the 5 tasks, posts a public review on X using the rules below.
5. They submit their X post link and USDC wallet address via a 2-field Tally form.
6. Form closes Saturday Jun 27 at 12:00 WAT.
7. We do a random draw of 25 winners and read all submissions to pick the top 3 best reports.
8. Winners are announced publicly on X with a thread that retweets every submission as a public thank-you.
9. Payouts of \$5 or \$15 USDC are sent within 24 hours.

The 5 tester tasks

1. Open the app and make your wallet

2. Get some crypto into it (any token)
3. Send some to anyone
4. Do a swap
5. Try a stealth address OR a burner wallet

Private send is not in scope for this round.

Submission rules

- Post must be on X, public
- Must tag @francis_codex and @seedless_wallet
- Must include the hashtag #GoSeedless
- Must include at least 1 screenshot of the app in use
- Must include real, honest feedback (what worked, what didn't, what they'd change)
- Tally form submission required to enter the draw

Prize structure

Tier	Count	Payout each	Total
Random winners	25	\$5 USDC	\$125
Top 3 reports (bonus)	3	+\$10 USDC	\$30
Total budget			\$155

The 3 top-report winners receive \$15 USDC total (the \$5 baseline plus the \$10 bonus). Top 3 are selected based on most actionable insight and clarity of feedback.

Timeline

Date	Milestone
Mon Jun 22 evening	Lock all assets (form, guide, tasks, tweet, TG pin)
Tue Jun 23 morning WAT	@francis_codex post fires + @seedless_wallet QT + TG opens + Tally opens
Tue Jun 23 to Sat Jun 27	Open participation window
Sat Jun 27, 12:00 WAT	Tally form closes
Sat Jun 27 evening	Random draw + top 3 selection
Sun Jun 28 morning	Public winners announce + retweet all submissions

Sun Jun 28 afternoon	USDC payouts complete
----------------------	-----------------------

Mon Jun 29	Aggregated feedback locks 0.4.5 priorities
------------	--

Decisions already locked

- Lead account: @francis_codex (personal). @seedless_wallet quotes and amplifies.
- Winners announced publicly
- Hashtag: #GoSeedless
- Geo: global, no country restrictions
- Payout asset: USDC
- Selection: random draw, not first-come-first-serve
- Installation guide will be provided

What we still need mod sign-off on

- Final sign-off on the prize structure as stated above
- Confirmation that Tuesday morning WAT works as the launch slot
- Anything else to add or remove before we lock
